

# Quality Policy

The quality policy describes the fundamental principles against which we at Comet Security Services Ltd. operate and which will support the achievement of our objectives, vision, and values. We recognise that success in reaching our objectives depends on our ability to create real and perceived value for customers in everything we provide. We also acknowledge that we depend on the people we work with and our processes to achieve this.

Comet Security Services Ltd aims to be recognised as a best-in-class provider of security services through our management team, which supports our people in the delivery of customer service excellence. We also have efficient and effective operational processes and an ongoing program of training and development.

Our success will be measured through the achievement of our quality objectives. This can best be achieved through the recruitment of highly motivated, customer-focused officers, supported by our managers at all levels of the business, and by the recognition that our people are the public face of the company and significantly impact the customer's perception of how we operate and the service we deliver. Therefore, we must ensure that we create an environment that makes Comet Security Services Ltd an excellent place for all our employees to work.

We are committed to complying with all regulatory requirements of the security business. We aim to continuously improve our security services and measure those at regular intervals.

This policy is a controlled document and shall be reviewed and amended, where applicable, to ensure it remains relevant to the Company's business.
