

Waste and Recycling Policy

Comet Security Services Ltd. promotes sustainability through prudent waste management and recycling. We attempt to reduce our use of materials, reuse materials when possible, and recycle and utilise recycled materials whenever possible. We consider these principles when managing office products, including paper and electronic equipment, including computers, plastic, glass, cans, and batteries.

To achieve these goals, we educate and inform our staff about policies and issues and make recycling receptacles available on our premises. Whenever possible, we use suppliers who will help us collect and recycle used products they have supplied. We always seek information on waste reduction, recycling, and minimisation from our suppliers and vendors.
